

Tuesday 28th February 2023

Dear Parents and Carers,

Ref: British Science Week 10th – 19th March 2023

Science Week is fast approaching and this year it will focus on the theme of '**Connections**'. British Science Week is a ten-day celebration of events running throughout the whole of the UK with the aim of celebrating Science, Engineering, Technology and Maths. During the week we will be looking closely at the different areas of Science, learning about real life Scientists and the impact of their work as well as becoming scientists ourselves and carrying out investigations.

There will also be an opportunity for you to find out more about what we have planned for Science week and take part in some Science in our **Parent Workshop** on **Monday 13th March 2023**.

We would love to build some links with parents to further our possibilities driver and give children context for their learning.

- Do you have a science background?
- Do you work in a field of science?
- Do you know someone who does?

If you have a background in any field of Science or STEM (Science, Technology, Engineering and Maths) and would be willing to do a talk with a few classes about what a job in Science entails, please contact the school office: clericalofficer2@stockwell-pri.lambeth.sch.uk or 0207 274 7687.

Full details can be found on the British Science Week 2023 website:
<https://www.britishsienceweek.org/>

Yours sincerely,

Ms. B Aina
Science Lead
